1. The Technisches Büro Schöneeweide at Wuhlheide 218, formerly run by Ing. Weiner, is now being managed by Ing. Gayevski and/or Ing. Rewin of the Technisches Büro Friedrichshagen.
2. Technisches Büro Schöneeweide is working on the reconstruction of guided missile steering devices and all its orders relate to such equipment. Procurement is handled by Ing. Rewin. The following orders were placed during 1946 and 1947:
  - a. Approximately 30 special ring potentiometers at 350 marks each. Some of these have already been delivered. They are required for guided missile steering units. Negotiated by Weiner and Lüdke in 1947.
  - b. Two winding machines (Wickelmaschinen) for the construction of the potentiometers listed above, together with construction drawings. Machines were to cost 11,000 marks and the drawings 3,500 marks. This order, for which negotiations were made during 1946 by Rewin and Lüdke, was never filled.
  - c. 750 bar potentiometers for steering units, at 200 marks each. Handled by Rewin and Lüdke in 1947.
  - d. 20 time recorders and 20 accessory units, at 14,000 marks each. Ordered in 1946 by Rewin and Lüdke. Up to the present time, 20 accessory units and 2 time recorders have been delivered.
  - e. 20 optical quadruple recorders, at 8,000 marks each. Weiner negotiated this order in 1947. The recorders have not yet been delivered.
  - f. One kinotheodolite unit and two accessory cameras. These units were repaired at an agreed cost, negotiated by Weiner in 1947, of 28,500 marks. They have not been delivered and are still in Mariendorf.
  - g. 5 linear magnification units for twin telescopes, 10 x 80, for measuring the trajectory of torpedoes, at 2,850 marks each. Negotiated by Weiner in 1947.

This document is hereby regraded to  
CONFIDENTIAL in accordance with the  
letter of 16 October 1978 from the  
Director of Central Intelligence to the  
Archivist of the United States.

3. The guided missile steering device items on the list above were ordered by Rewin through Lüdke of Askania in Berlin-Friedenau. Some of the devices were delivered, others were held up by the recent seizure of the Askania-Werke. The Rewin group received kinotheodolite units and accessories valued at 350,000 marks up to April 1947, but all deliveries have stopped and even the Askania plant at Teltow has been unable to find a means of delivery.

- 25X1 4.  reports that 120 experts formerly engaged in guided missile work are now employed by the Kummereck & Kniess plant at Wuhlheide 228/230, which is directed by Colonel Grayevski. It is called NTB 11 and comes under the command of a Colonel Nitshagov. The latter lives at Müggeldamm 147, Berlin-Friederichshagen.
